Assignment #1 (Phonebook).....2

Request:

If possible, avoid printing to save paper & earth. Document(s) are designed for easy viewing on monitors.

Assignment #1 (Phonebook)

Develop a program to manage a simple phone book with entries of the format
"FirstName,LastName,TelephoneNumber"

Example of a record:

```
Pop,Bobby,123-123-1234
```

The program should display a menu as bellow with functionality:

```
-----  
Welcome To Phone_Book v1.0  
-----  
Menu :  
1. Add  
2. Lookup  
3. Update Phone Number  
4. Delete  
5. Exit  
  
Enter your selection :
```

After performing the requested operation, the program should the same menu back to the user.
