Assignment #1 (Payment Calculator)	2
--	---

Request:

If possible, avoid printing to save paper & earth. Document(s) are designed for easy viewing on monitors.

Assignment #1 (Payment Calculator)

Prompt the user to enter information for:

- Enter Hours Worked
- Base Hourly Rate
- Overtime Hourly Rate

The first 80 hours are calculated using the base rate, and hours over 80 are calculated using the overtime hourly rate. The contractor gets 4 hours of vacation for every 40 work hours.

Develop a program using functions.
